DETAILED ACTION

Claim Rejections - 35 USC § 112

1. Claims 7-17 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

2. Claims 7-17 recites the limitation "...the separation member..." in line 3. There is insufficient antecedent basis for this limitation in the claim.

The examiner suggests changing "the" to "a".

Claim Objections

3. Claim 7 is objected to because of the following informalities:

The claim as written is not grammatically correct. The examiner suggests adding "is" between "zone" and "in" in line 4.

Appropriate correction is required.

Allowable Subject Matter

4. Claims 21-31 are allowed.

5. The following is a statement of reasons for the indication of allowable subject matter:

The closest prior art of Aubert et al. (US 4,623,423) does not suggest, in a method of growing stoichiometric lithium niobate and lithium tantalite crystals, the charging of a zone stuff material after charging solid feed material into a long crucible and then melting the zone stuff while keeping the underlying solid feed material in the solid phase. No zone stuff material is suggested in Aubert et al.

Conclusion
